Yarn Tree Needlework cards are frequently used in magazine projects. Bear and Christmas cards from Cross Stitch! Magazine, center designs from Jeremiah Junction.

All of our needlework cards are "tri-fold". This means that the card folds over to cover the back of the needlework, and then folds a second time to form the card. Use a glue stick or a *small* amount of white craft glue to finish (if you use too much water base glue, the paper may absorb the water and ripple). Press the card under a book until the glue is dry.
