## Yarn Tree paperweights

have been used in dozens of designs in magazines and books, but there are 1000's of small designs that will fit in a paperweight. You can also use just a section of a larger design. For example, just a section of a towel or border design.

**Don't be surprised** if you sell a lot of paperweights for non-needlework projects. You can make a paperweight with stamps or coins from your dream vacation, photos of the new baby, pressed flowers—all it takes is a little imagination!

## Hand-Painted Ceramic Buttons

**Colorful hand-painted** ceramic button assortments from A Homespun Heart. Washable, but do not put in washer or drier—they may chip! Suggestion: stitch through the button holes with heavy thread, then use a button pin to clip to the garment. Makes it easy to remove the buttons before washing—a great idea for childrens clothes!
